

NOMINATE SCORING ON TABLET

26-10-2020

Each time the club runs a competition, all previous competitions are wiped from the tablet and only the current competition is available.

Tablet turns on with top button on (R) side of unit.

The larger button is volume control (not needed).

To begin, remove your stylus pen and tap the LOGIN button.

IMPORTANT NOTE:

This is the stylus pen.

There is a black button on it, which, if pressed accidentally, will stop the pen working.

For some ipads including Nominatè's when placing the stylus pen back into the tablet, **ensure that the word "Samsung" faces upwards.**

Failure to do this will cause the pen to jam.

The tests for the day will appear after tapping the "LOGIN" icon.

Next, with your stylus pen, select the test that you are pencilling/scribing for.
(Yellow arrows)

Select your judge
(Yellow arrow)

Two ways to search for rider...

- 1) enter the horse number, and press the enter key.
- ~~OR~~
- ~~2) select the magnifying glass.~~

If rider not found...

... check that you are in the correct test...

Tap on the 3 bar icon to open the drop-down menu,
then...

Tap the "back" arrow (top left).

NB If you can't find the horse and rider, resort to paper.

(The judge will have a manual sheet, and this test can be entered later.)

Each movement will come up sequentially...

- Pencil in the judge's comments
- Enter the mark by tapping the relevant box
- Then tap the "enter" icon, and the next movement will automatically appear.

To make corrections...

- Tap the " " icon at (R) of screen to convert stylus to an "eraser";
- Erase the error;
- Re-tap the " " icon to return the stylus to "writing" mode.

This screen will appear at the end of the test for the judge to check their marks.

If a movement is not complete, it is flagged.

After this screen, is the collective marks and judge's signature.
